

NEW SUBSIDY BILL IN THE SENATE.

Senator Frye Introduces Important Measure.

WASHINGTON, Dec. 9.—Senator Frye today introduced the new ship subsidy bill. It differs in form from the subsidy bill of the past two sessions. It is divided into four titles and fifteen sections. The sections under the title "Ocean mail steamers" are devoted to amendments to the ocean mail act of 1891. The last amendment is requested to consider it, as well as the Postal act in providing for the transportation of mails.

The present limit of ocean mail contracts, ten years, is increased to fifteen years. The Frye bill provides seven distinct classes with a rate of \$8 to twenty-knot steamers, increasing from 2,000 to 10,000 tons the minimum size; \$3 for 10-knot steamers provided the size is increased from 5,000, the present minimum tonnage, to 5,000 tons. The proposed maximum mail rates per gross ton per hundred nautical miles are:

Over 10,000 tons, 20 knots; \$2.7; 10 knots, \$2.5.

Over 5,000 tons, 15 knots, \$2.2; 17 knots, \$2.1; 18 knots, 1.9 cents, \$1.5.

Over 2,000 tons, 14 knots, \$1.5. Rates for mail steamers to the West Indies, Central America and Mexico cannot exceed 70 per cent of the minimum rates.

The second title, "General Subsidy," contains the general subsidy for all vessels, steam or sail, which are not under mail contracts. This general subsidy is uniform, 1 cent per gross ton per hundred nautical miles for not exceeding sixteen entries in one year.

To promote the building of new ocean vessels an additional allowance of one-quarter of a cent per gross ton is made for five years.

Any vessel to receive the general subsidy must carry mails. It required, and must train in seamanship or engineering, and must be owned by an American citizen. The vessel to be at the service of the government if required for defense.

Any vessel to receive the general subsidy must be class A-1 and at least one-fourth of the crew must be Americans.

The bill provides an annual bounty of \$2 a ton for deep-sea fishing vessels and of \$1 a month for American citizens who shall receive only one cent of subsidy, and that a vessel which has received a bounty shall not be sold to a foreigner except by consent of the Secretary of the Treasury.

The bill does not provide American registry for foreign ships owned by Americans.

MAY FIND MURDERER AT GRASS VALLEY.

Coroner's Inquest Will Probably Bring Out the Facts.

GRASS VALLEY, Cal., Dec. 9.—The finding of a 44-caliber bullet in the back of the body of Joseph Griffling, whose remains were found in an abandoned mine shaft on Saturday, is regarded as conclusive proof that he was foully dealt with, and at the coroner's inquest late this afternoon it is expected testimony will be given which will reveal the identity of the murderer.

Witnesses believed to be familiar with the details of the crime have been subpoenaed as well as prominent citizens with whom the interested parties have conversed.

The interest in the tragedy continues great, and rumors of all sorts are being circulated, which, when traced to the source, however, have generally been found to be without foundation.

LOS ANGELES CASHIER GETS AWAY WITH \$100,000 IN CASH

H. J. Flishmann of the Farmers and Merchants Bank has Disappeared With a Large Sum.

LOS ANGELES, Cal., Dec. 9.—H. J. Flishmann, Cashier of the Farmers and Merchants Bank of this city, has disappeared with a sum of the bank's money which Vice-President H. W. Hellman estimates at \$100,000.

The shortage was discovered this morning. Flishmann has not been seen since 9 o'clock Saturday morning. At that hour he was at his club. He notified the bank people that he was ill Saturday morning and would not be at his duty. Nothing was thought of the matter at the time. This morning when Flishmann failed to report, his accounts were gone over and the shortage discovered. The exact amount has not yet been ascertained.

Flishmann had been Cashier and assistant Cashier of the Farmers and Merchants Bank for many years. He began work for the bank when a boy in 1877. He was under bond with the American Surety Company for \$30,000.

In addition this, he has real estate and personal property in this city sufficient, in the opinion of H. W. Hellman, to protect the bank from the loss of a dollar.

Flishmann married the daughter of A. J. Harrell, but was divorced some time ago.

He is a man of 42 years of age, medium build and smooth face.

NEWS IN SAN FRANCISCO.

SAN FRANCISCO, Cal., Dec. 9.—Chief of Detectives Seymour is in receipt of a telegram from the Chief of Police of Los Angeles announcing that Henry J. Flishmann, cashier of the Farmers and Merchants' Bank of that city, absconded on Saturday last with \$100,000 in currency and no trace of him had been discovered.

TARIFF BILL FOR ISLANDS.

Chairman Payne Has a New Plan for the Philippines.

WASHINGTON, Dec. 9.—Chairman Payne of the Ways and Means Committee today presented to his Republican colleagues of the committee a tariff bill for the Philippines, which he had drawn to meet the conditions of the recent Supreme Court decision. The Republican members of the committee met at 10:30 to continue the discussion of the subject. The meeting was executive and was preliminary to a full meeting of the full committee tomorrow, to which a Philippine tariff measure will be submitted to the Democratic members and voted upon.

The Payne bill is quite brief, with two main features—applying the Dingley law as against Philippine exports to this country and applying the Philippine Customs tariff schedule to goods entering the Philippines.

A further section grants a rebate of customs taxes on goods which have paid an international revenue tax in this country. There is no provision made that it shall be temporary, so that the rates, if imposed, would be applicable until Congress otherwise acted.

As soon as the committee assembled Mr. Payne offered his bill and it opened an extended discussion on the several features involved.

The meeting lasted until noon, at which time no final action had been taken, and the committee adjourned until 2 P. M. to hear Secretary Root on the requirements of the situation.

During the morning discussion it developed that Mr. Russell of Connecticut and some other Republican members strongly favored a provision to the bill offered by Mr. Payne by which the tariff rates would be sealed down from 15 to 30 per cent on goods passing between the United States and the Philippines. This was urged on the ground that Great Britain had now 40 per cent of the trade of the Philippines and Germany and other European countries held a certain percentage, while the United States had but 3 per cent of the trade. For this reason it was urged by Mr. Russell that the United States should have some concessions as against foreign countries, in order to bring the tariff on goods from the Philippines trade for the American trade.

Secretary Root is preparing a bill which he expects to submit to Congress in a day or two fixing duties for the Philippines to meet the Supreme Court's decision.

AFTER CIGARS MADE BY CHILDREN.

Workingmen Asked Not to Smoke Certain Cigars.

SCRANTON, Pa., Dec. 9.—The common resolutions of the American Federation of Labor Convention this morning reported a number of resolutions and the delegates will consider. These resolutions were adopted:

Pledging the assistance of the federation to the Journeymen Tailors' union in its contest for free shops.

Petitioning Congress to pass laws so that every seaman shall have the right to quit any merchant vessel on which the service has become objectionable to him, also to prohibit towing on oceans of gigantic rats.

The committee on labor reported the following resolutions, which were adopted:

That the federation refuses to recognize labels gotten up by rival unions of the Tobacco Workers' International Union; that the federation itself upon a form of obligation that will instruct all new members to demand the union label wherever they purchase manufactured goods; endorsing the union stamp of the International Union of Journeymen Horsehoopers, and endorsing the label of the Actors National Protective Union.

A resolution boycotting cigars made by child labor and machinery caused a long discussion. Many delegates maintained that the federation could not successfully oppose the introduction of machinery. They advocated the organization of operators of machines like those who operate the sewing machines. The resolution with the word "Machinery" stricken out was adopted.

LONDON, Dec. 9.—Severe snow storms have swept over Scotland and many parts of England. Railroad traffic in the Highlands is much interfered with by the storms.

FOUR MASTED VESSEL REPORTED IN THE SURF

ABERDEEN, Wash., Dec. 9.—A big four-masted steel vessel is reported to be in the surf about twelve miles north of the entrance to Gray's Harbor. The vessel has been outside several days, first being sighted Friday night. She carried only one sail and had a heavy list. Saturday a fog covered the vessel and it was seen that she had drifted into the surf and was heavily pounded on the starboard. It is impossible to decipher the name of the ship. A tug from Hoquiam has gone to the scene. The vessel has anchors out and if they hold she may be kept from drifting high on the beach.

AGED PICKPOCKET IS IN JAIL AT LOS ANGELES

LOS ANGELES, Cal., Dec. 9.—Edward Harvey, otherwise known as "Old man" Harvey and a notorious pickpocket, who is wanted by the Boston police for the alleged robbery of Police Captain Warren at Brighton two years ago, is in the County Jail here, awaiting trial on the charge of grand larceny.

He was arrested September 18th last while attempting to pick the pocket of a spectator at a circus. As the case against him is weak, the District Attorney will turn the prisoner over to the Massachusetts authorities upon their arrival here.

TELLS OF THE SITUATION IN SOUTH CAROLINA

WASHINGTON, Dec. 9.—Mr. McLaughlin of South Carolina made a speech in the Senate today defining his position in South Carolina and discussing the campaign in that State as well as his position regarding Federal patronage in South Carolina, and his relationship with it. He said the campaign against him has been one of calumny and misrepresentation. As to the appointments in the State, he sought to have Democrats appointed, and where these could not be achieved, he tried to have such Republicans selected as would give satisfaction to the people. He did not want the crime of burning a Postmaster repeated in his State.

SOUTH CAROLINA SENATORS MAKE A FEW BLUFFS

WASHINGTON, Dec. 9.—Mr. Jones of Arkansas denied some of the statements made by Mr. McLaughlin, especially so far as it indicated that he (Jones) had any ulterior motives in any action he took regarding McLaughlin's connection with the Democratic party.

Mr. Tillman replied to Mr. McLaughlin, denying there was a conspiracy against him. Mr. Tillman referred to the resignations of the Senators from South Carolina and their subsequent withdrawal.

Mr. Hoar referred to the fact and said he did not understand how resignations could be withdrawn.

Mr. Tillman said he would be glad to have the Judiciary Committee investigate the matter and the Senate declare both seats from South Carolina vacant, "so we could wash our dirty linen elsewhere."

Mr. McLaughlin said he would join with Mr. Tillman in having the seats declared vacant and meet him anywhere.

Mr. Tillman immediately offered to sign with Mr. McLaughlin a resignation and send it to that man (pointing to President pro tem. Frye), and that would settle it.

Mr. Tillman declared that he did not want the vote divided and would be willing to go before the people with McLaughlin on his "new fangled issues."

Mr. Hoar again asserted that upon the statement of the Senators from South Carolina he did not believe either of them was entitled to seats on the floor.

Mr. Tillman said he was glad to find his own opinion backed up by the distinguished chairman of the committee. He did not believe the Governor had anything to do with the matter and could refuse to accept resignations. He thought the Committee on Privileges and Elections should inquire into the whole case.

At this point Mr. Lodge secured recognition and said:

"While these resignations are preparing I move the Senate proceed to the consideration of executive business," and the motion carried, amidst a laugh at the expense of the South Carolina Senators.

At 2:35 the Senate went into executive session to consider the Hay-Pauncefote treaty.

At 2:55 P. M. the Senate adjourned.

FOOD FOR THE BRIGANDS AND THEIR CAPTIVES

SOFIA, Bulgaria, Dec. 9.—According to information received from Salonica, Miss Ellen M. Stone and Madame Tsilika, her companion, are concealed in the vicinity of Rilto (about five miles south of Dobritza, in Bulgaria). The news was brought by a Macedonian, who left there December 1, and who furnished prize information regarding the hiding places and the names of the agents supplying food for the brigands and their captives. It is understood that the information is considered reliable enough to justify the American officials in Turkey to dispatch agents to treat with the bandits and that application has already been made to the Turkish government for the free passage of the emissaries across the Turkish frontier, which is vigorously guarded by troops at every hundred yards.

BERKELEY PRESIDENT IS ROASTED BY A MINISTER

BERKELEY, Dec. 9.—Perhaps one of the severest public denunciations ever heard in this city was uttered last night by Rev. R. L. Halsey, pastor of the First Baptist Church, one of the most prominent religious organizations of this city. The clergyman scored President Clarkson in such severe terms that the arraignment is the leading topic of discussion on the streets this morning.

The words which have created such a decided sensation are in part as follows:

"My text tonight, 'The Seat of the Scornful,' was suggested by the President of the Town Board of Trustees. Grey-headed Township in a position of importance is a pitiable exhibition and the instincts of a true gentleman should restrain him from profanity in such a place. But in the presence of women in a public place we have been compelled to bear with such conduct. It is a misdemeanor under the State law.

"The dullness of one's moral perceptions, as shown by such behavior, is sufficient comment on the worth of his recent contemptuous utterances in which he went out of his way to speak against the churches, both Catholic and Protestant. The moral obtuseness of the man cannot be excused on the ground that he is possessed of riches, but only makes the offense against good citizenship more culpable, and is a part and parcel of the tendencies that breed official contempt of the body politic, creating a class of unscrupulous political bosses.

"The political and moral delinquency to which we refer is the confession that he is owner of shares of the Berkeley Electric Lighting company. As he votes upon the bills of the company, he is guilty of a misdemeanor under the State law and liable to arrest. The recent franchise which was granted for a power line through this city has glided the pocket-book of some one."

EXCITEMENT ON THE STREETS OF REDDING

REDDING, Cal., Dec. 9.—Considerable excitement exists here as a result of the story which, if true, forms the aftermath of a hold-up on Redding streets about 2 o'clock this morning. Charles Hippler, a saloon keeper, was going home when a highwayman stopped him at the mouth of a dark alley, demanding his money. Hippler shot at the fellow and the shot was returned. Hippler escaped unhurt.

Just before noon a report reached town that a rough character had been found about a mile from town in a deserted cabin suffering from a bullet wound in the bowels. He is probably the highwayman in the case. Officers have gone to investigate.

LOCKWOOD SCHOOL.

The report of the Trustees of the Lockwood School building was referred to the District Attorney to report as to whether or not the building was in compliance with the provisions of the act to advise the Board as to what action should be taken.

PRIZED AND GIFTED OF WAY.

Supervisor Talcott brought up the subject of the acquisition of a small piece of property near the San Leandro bridge which was required to complete certain supports of the bridge to be built in return for which right of way was given to the Oakland, San Leandro and Hayward Railroad over the bridge. Speaking on the subject, Mr. Talcott said:

"The Oakland, San Leandro and Hayward Railroad Electric Railway Company to the piece of land necessary for the bridge, and the bridge was brought up to the time we were getting ready to work. We filed an application with the board of directors when the president and secretary signed the deed there was no proper notice given to the board. Since then the railroad company has adapted a resolution to the deed, and that resolution is here today to make the record complete."

Mr. Talcott then introduced the resolution in question, which was read and then a resolution was adopted accepting the deed and granting the Railroad Company right of way over the bridge.

Mr. Talcott then said: "I would like to have the clerk obtain the original copy of the deed of the property now on record and place it in the proper place. The Attorney and have him examine them and certify that they are in proper form."

ANDERSON'S SALOON.

The protest against granting a saloon license to Ingvald Anderson on the San Leandro road was then brought up.

Attorney Hewitt said that the protest against the granting of the license was ineffective. He showed a map of the place of the proposed saloon and stated that some of the protesters lived in Elmhurst and some of them were far away as the foot-hills.

Attorney Kinsell, who appeared for the protesters, said that the Board had only a few months ago refused Anderson a saloon license because the granting of it was prejudicial to the public good. There were a number of saloons in the neighborhood and he said that one still would be superfluous. It was undesirable to believe that a napoleon of this kind could be made every few weeks.

Hewitt said that no legal reason had been presented against granting the license. He had only given expression to his own reasons as to why Anderson should be prevented from running a saloon. He also declared that nothing had been said against the character of Anderson.

Supervisor Mitchell said that Anderson had been here only a few months, having come from San Francisco. How could the people know anything about him?

Hewitt said that there were people in San Francisco who were known to the Supervisor and to himself and the same might be true of Anderson.

MITCHELL OBJECTS.

"I think that if this Board refused a license to this man three or four months ago and then another application comes in and we grant that license, it would be an intimation that we did wrong before. We may have some new testimony, but I think it would look as if it was wrong before, I think it would tend to a reflection on the Board. People would get to thinking that the Board was acting without deliberation. I am sorry that Anderson, who seems to be a pleasant man, comes under a rule which I have made for myself. We have closed up a number of very bad places out there and we have shut up three or four saloons at Frutivale. I have made a rule that I shall not vote for any saloon on the San Leandro road at this time and that I shall vote to close any saloon that is not run in a proper manner. I am sorry that Mr. Anderson comes under the rule I have made."

ROWE COINCIDES.
"I feel," said Supervisor Rowe, "just like the chairman. I believe there is no necessity for a saloon there and I believe the people don't want it. I will move that the application be denied. There was no second to the motion."

Supervisor Horner said that, the last time, he had voted to give Anderson a license.

At the instance of Supervisor Talcott, the Board went into executive session, the attorneys on both sides accompanying them.

MOTION TO GRANT.

After a session of half an hour in the

private room, the Board emerged and the chair called for a second to Supervisor Rowe's motion that the application be denied. No second was made.

Supervisor Church said: "There is no motion before the house. I move that the application be granted."

The supervisor Talcott did not hear the motion of Mr. Church, and made the same motion.

Supervisor Church seconded the motion.

The protesters' attorney said, now that that motion had been made, he desired to state that he wanted to go to the merits of the case.

The chair asked if that had not already been done.

The attorneys said that it had not been done, that he had simply objected to the granting of the license simply because it was prejudicial to public morals. He now wished to prove that it was prejudicial and, further, that the application was not made out in due form.

TALKING ON FORM.
Supervisor Mitchell said that today, at 11 o'clock, had been set for a hearing. He wanted to know when the attorney wanted to be heard.

Kinsell said he was ready to open the case then and there.

"When the matter was before the Board before," said Supervisor Talcott, "our decision was to grant the license. I don't see how we can grant any other way than grant the license. Since the matter came before us, nothing has been said against the license. The only thing that has been said is that the license is not made out in due form. I am in favor of granting the license."

SUGGESTS A NEW ORDINANCE.
"I am, however, in favor of a change and that is in the ordinance itself," Kinsell then argued for some time, claiming that the application was defective because it contained no affidavit on the part of Anderson as to his good moral character.

Supervisor Talcott was asked if he was willing to withdraw it. He replied that he was willing to withdraw it temporarily.

Supervisor Mitchell suggested that the application be referred to the District Attorney and that he report at the next meeting as to whether or not it complied with the license ordinance.

A motion to that effect prevailed, and then the case was taken over.

DRAFT NEW LICENSE MEASURE.
On motion of Supervisor Rowe, the Ordinance and Judiciary Committee was organized and the committee was directed to draft a new license measure.

ROAD REPORTS.
Reports from road foremen were received and filed as follows: Brewer, of Washington; Bonner, of Niles; Meyer, of Deary; and others. The reports were read and approved.

REQUISITIONS FROM THE COUNTY ASSESSOR.
Auditor and Insolvency were referred to the Building Committee.

A METEOR CASE.
The request of Contra Costa Water Company for permission to erect a water house on the Stanley road on the pipe line between the Contra Costa and Oakland was referred to Supervisor Talcott. The structure is to be 15 feet high.

THE APPLICATION OF M. K. SILVA FOR A LICENSE.
The application of M. K. Silva for a license was referred to the License Committee.

A resolution was adopted transferring from the General Road Fund to the Ocean View District Road Fund.

WATER MAIN BREAKS AT SAN LEANDRO BRIDGE

Large Flood Causes the Washout of the Earth Fill.

The big thirty inch water main of the Contra Costa Water Company parted at the east end of the new San Leandro bridge about 5 o'clock yesterday and caused a heavy washout of the earth fill on the northeast end.

No damage at all occurred to the concrete work, the arch and retaining walls standing intact.

The main was sunk in the earth fill and rested on timber supports. The rains caused the earth filling to settle, and somehow the timber supports gave way, causing the main to part. A deluge of water boiled up through the filling, flooding the bridge. The water made its way over to the west end and caused some settling in the earth fill, but did no other damage.

For a time it looked as if the flood would break through the parapet, but it withstood the pressure, and finally the water forced an outlet through the bank into the creek. The washout left a section of the remaining wall standing stripped to the base. It stood uninjured just as it was when put in.

In some way the gate in the pipe at the west end of the bridge got wrenched so it could not be closed. As a stream of water poured from the other main, causing it to pour into the chasm.

The water company has a large force at work repairing the break.

GOODS FOR THE STONE CONTRACTING COMPANY.
J. B. Stone of the Stone Contracting Company, which built the bridge, was declared bankrupt this morning, his assets being valued at \$10,000, and liabilities at \$10,000.

Deputy County Surveyor E. C. Prather, who drew the plans for the County, was also on the scene, as also were Manager Adams of the Water Company and Division Superintendent McLaughlin of the Transit Company. The latter was there to see if there was any danger in running cars over the bridge. He saw no ground for alarm, and the cars continued running regularly.

The ground settled, the timbers underneath gave way and the main part, that is all there is to it," said Manager Adams.

Engineer Prather made the following statement for publication:

"The reported accident to the concrete bridge across San Leandro creek on the San Leandro road at the town of San Leandro, was not any falling or giving away of any part of the structure, which is intact, but was the washing away of a portion of the earth embankment over the bridge, caused by the breaking of the thirty inch water main of the Contra Costa Water Company, which leads from their Lake Chabot reservoir and Alvarado pumping plant. The bridge sustained no injury whatever."

The parapet wall withstood the immense force of the thirty-inch stream of water directly against it for twelve hours.

"During the construction of the bridge, and when the embankment was being made over the arch and between the parapet walls, the care of the water pipe was under the direction of the water company's engineer, and the trestle that was built under it after the old wooden bridge on which it was rested before the concrete bridge was built, was from the pressure of the earth embankment."

"There is absolutely no settlement of foundations in any part of the immense bridge, nor ever has been. The bridge is a magnificent structure, built in accordance with the plans made and with a view to permanent future generations to wonder at. Those who wish to need only take a trip to San Leandro and see for themselves."

WITHDRAW MONEY FROM THE BANK.

OMAHA, Neb., Dec. 8.—There was a considerable number of depositors of the City Savings Bank present to withdraw their money when the doors opened this morning. Vice President Hank said the bank was due to a mistaken impression.

The City Savings Bank was connected with the Omaha Loan and Trust Company, which was reported Saturday to be in difficulty. The bank officials were prepared for the run and had great piles of gold on the counters with which to pay the depositors.

On learning that the bank had become segregated from the Trust Company, returned and again deposited their money.

A line of people waiting for their money began to diminish after 1 o'clock, but a number of anxious people continued to call and hurried to the bank. Charles E. Bates, treasurer of the bank, said there was enough money in the bank to pay the depositors.

LOS ANGELES CASHIER GETS AWAY WITH \$100,000 IN CASH.

(Continued From Page 1.)

H. W. Hollman, Vice-President of the Farmers and Merchants Bank, said to the Associated Press here:

"I think the amount of shortage will approximate \$100,000, though I cannot now give the exact figures. The accounts are being checked, however, and we shall soon know definitely. The first intimation I had of anything wrong came to me this morning in going over the cash account. I saw immediately it was not what it should be and soon arrived at the conclusion that Fleischman had taken a large sum. We are fully protected, however, and the bank will not lose a dollar."

Fleishman did not report for duty at the bank Saturday, but sent word from his club at 4 o'clock that he was recovering well and would not report for duty. He thought nothing of it and took the occurrence as a matter of course. When, however, he failed to appear at the usual hour today, his secretary, who is a man in a cursory manner.

"I cannot conceive of his motive in defaulting, if such is the case. He was a man of property and, so far as I know, had no bad habits. He had been employed by the Farmers and Merchants Bank since 1875, and had in turn served as assistant cashier and then as cashier. He was a very capable man, and I believe, better liked than Fleischman. He was a married man, and his wife and two children were with him. He was a very capable man, and I believe, better liked than Fleischman. He was a married man, and his wife and two children were with him."

"Upon ascertaining the condition of his accounts today I immediately telegraphed to Mr. Hollman, vice-president, who is president of the Farmers and Merchants Bank and who is now in San Francisco. He first gave me the information to the police authorities."

The Farmers and Merchants Bank, of which H. W. Hollman is president, and H. W. Hollman, vice-president, is an oldest and longest bank in Southern California. Its capital is \$500,000, with a surplus of \$100,000 and deposits \$5,500,000.

H. W. Hollman Jr. said of Fleischman:

"Fleishman had no valid excuse for taking the money. He has property enough to realize the amount he has taken from the bank. He was always considered a man of fine habits and unimpeachable integrity. We are at a complete loss to account for his action. The bank is amply protected and will not lose a cent."

Mr. Fleischman's slightest idea, his whereabouts. It is probable that he left Saturday immediately after telephoning the bank that he would not be down. Of course, it may be some time before he is located. However, we are not worried about the money, since we have bond and collateral sufficient to protect us fully."

[Some years ago Fleischman married an Oakland girl. In a short time he deserted her and she secured a divorce from him. His wife now lives in the city. His father was a member of the firm of Grayson, Harrell & Owen, wholesale butchers.]

LONDON THIEVES AGAIN ARRAIGNED IN COURT.

LONDON, Dec. 8.—Thomas Peterson Gouldie, the former bookkeeper of the Bank of Liverpool Dick Burge, the English pugilist, and P. T. Kelly, the book-maker of Bradford, were arraigned at Bow-street Court in connection with the Liverpool Bank robbery. The prosecution counsel announced that Gouldie admitted he had forged checks but disputed the aggregate amount.

The statement of counsel was mostly a repetition of facts already known. The most interesting point was the announcement by counsel that he would be able to prove that after Kelly had "milked" Gouldie to the extent of 75,000 pounds, Burge got word of the situation and in conjunction with Laurie Mark, the American trader, decided not to leave Gouldie and suicide by jumping overboard from a channel steamer, and James Mark, a bookkeeper, who had been known to American traders, decided not to leave Gouldie in the hands of Kelly.

After their arrest the detached Member to interview Gouldie, with the result that they accumulated 10,000 pounds, of which Burge took off his coat. James once tried, and Marks once-sixth.

NEW SCHOOLHOUSE AT KERN CITY.

BAKERSFIELD, Cal., Dec. 8.—Bonds in the sum of \$15,000 have been voted by the citizens of Kern City for the construction of a new school house. This is the second time the plan has been submitted to the voters, the first election having resulted in the defeat of the bond issue. The plan was submitted to the voters at a public hearing held at the residence of the property holder of the Kern City school house, which was called with which funds were raised. Out of 100 voters, 52 were cast against the bonds. The preliminary work for the erection of the new school house will commence at once.

LANCANE AND CROSBY WANTED TO FIGHT.

HAYWARD, Dec. 8.—At the bond mass meeting here Saturday night Attorney Langan made statements reflecting on Attorney J. J. Crosby as a Trustee. Crosby took off his coat, the tie was passed and both wanted to fight. The Police Marshal ran down the aisle and prevented bloodshed. The trouble was over the bond issue.

OAKLAND TRIBUNE.
Tribune Publishing Company William E. Dargie, President

A TORY DREAMER.

That fine old Tory publication, the London Saturday Review, seems to have forgotten the Holy Alliance and every other change in the political geography of Europe that has taken place since the battle of Waterloo, else it would not gravely advocate a semi-alliance, political and commercial, between Great Britain and Germany, to curb the political power and check the commercial progress of the United States.

To the Review, the Germany of today is the same Germany that existed when the battle of Marston was fought. It thinks the policies of the Pitts and Castlereags are applicable to the conditions of the present, and can be utilized as readily against the United States as they were against France, which for two hundred years threatened to dominate Europe, and during the reigns of Louis XIV and the Great Corsican, came near establishing absolute dominion over all the continent west of the Vistula.

But the French Empire went down and the Holy Alliance came up. The traditional policy of the Pitts was at a final end because the House of Bourbon, once more on the throne of France, was in league with their ancient foes, Austria and Prussia, and also Russia and the Bourbon of Spain and Naples. It was then that England found a new friend in her recent enemy, the United States, and hailed with delight the message of Monroe, which served notice on the allied royalties of the Old World that they must keep their hands off this hemisphere.

The promulgation of that message was at that time of far greater benefit to England than to the United States. Its doctrine has become vitalized by the wealth of power of this country, which has expanded beyond the dreams of statesmen of the day of Castlereagh and Metternich. It has been invoked against England as well as Spain.

Notwithstanding the changed conditions, the Review returns to the old Tory idea of using Germany as a means of retaining England's balance of power. It is an old dream. Germany and Italy have become united, with national policies of their own. Germany is the rival of England for commercial and political supremacy in Europe, where the United States has no wish to interfere. On these shores none will be permitted to assert dominion. Prussia is the dominating State of the German Empire. The House of Brandenburg has no further need to be the stipendiary of Great Britain nor seek foreign alliances to prevent being crushed by France and Austria.

Germany is indisputably the chief power of Western Europe, but in the East Russia is looming into a colossal strength. Her gigantic shadow falls to the West, the East and the South. The Turk is withering under it. The chill has fallen on British India and the German views it with undisguised alarm.

What can Germany and Great Britain do against the United States. This Republic is close kin to both—is their greatest friend. Their real enemy is at home. The Tory Review should wake up, and remember that Palmerston and Peel came after Castlereagh—that the Crimean War, Marston, Sedan and Sedan are pages in history. It has been asleep and is still dreaming.

AN IMPUDENT PROPOSITION.

It was the trick of a shyster lawyer to attempt to compel Secretary Hay to divulge the diplomatic secrets of the Government as a witness in a trumped-up libel suit between two foreigners. It was an amazing display of impudence. Perhaps it would have been undignified to have done so, but the cheeky performance could only have been adequately rebuked by the Secretary ordering his colored porter to throw the attorney and his client down the State Department steps.

Of course, Secretary Hay refused to answer the questions. To have done so would have been to betray the confidence of the Government and establish a dangerous precedent. It seems that a Danish banker in New York claims that another Dane libeled him in regard to the negotiations looking to the purchase of the West Indian possessions which Denmark is trying to sell to the United States. To prove the allegation, the Secretary was asked to testify as to what negotiations had taken place. If this was allowed, the diplomatic secrets of the Government could at any time be made common property by trumping up some kind of a lawsuit and calling the chiefs of the State Department as witnesses. No government could afford to have its diplomatic affairs interfered with in any such way.

The defects developed in the new battleships Alabama and Illinois will supply arguments in favor of building warships in the Government yards. They indicate also that the supervision over construction exercised by naval officers is largely perfunctory. Revelations of this character are certain to bring about a severe shaking up of the Navy Department.

Having lost his laurels as a hero, Aguinaldo is trying to pose as a martyr, but he gets little notice and no encouragement. Even his friends of the Anti-Imperialist League appear to have some back on him. They lost interest in him the moment he allowed himself to be captured by the United States troops.

Finding the bodies of two men on the beach indicates that more lives were lost on the San Rafael than have yet been accounted for.

A MATTER OF TASTE.

The Chronicle prints a long article on "How San Francisco appears to the opera people." If the opera people would speak their minds they would probably say San Francisco appears to us to be a very good thing. This would be the truth, but what the Chronicle prints is the customary bouquet handed ostentatiously over the footlights. In the pretended frippery of the talk there is the same old stage by-play—the empty compliments and the fustian praises of San Francisco's taste and discrimination, which every stage celebrity hands out after doing the town to a turn.

We eagerly continue to take these sawdust eulogies as the real thing although they have become the commonest of stage properties. This insistent demand to know what visitors think of us is an indication that we have a suspicion that we are not quite right or have such an inordinate unshooked vanity that we hunger greedily for the grossest flattery. Unless we are occasionally praised we suspect we are condemned. It is not a very self-respecting or self-reliant attitude. It is an evidence of rascality and gullibility that is a little humiliating when you come to think of it. What makes us so ridiculous is that our weakness in this particular is notorious in the East. When departing for California every author, actor, singer, politician or other celebrity is told that all he has to do is to praise our climate, scenery and hospitality and give us some soft sawdust about our taste and culture. The half always takes. We rise to it like a salmon to a sardine, and our visitors go away laughing at us.

Can't we get over this trick of playing showman to our own wonders, and after making our spell asking the stranger if he doesn't think we are great? We really know better, and a great many are secretly ashamed of the practice we have fallen into and which they follow only because they do not muster up courage to discard it as silly and childish.

If the opera people had had really thought the San Francisco people so independent and discriminating they would never abuse a confiding public so shamefully as they did. The Grand Company is without doubt a great aggregation of artists, but the whole San Francisco season was an unbroken record of faith breaking. The town was worked like a green counterpane on the midway. The last tricks were turned with scarcely a pretense of concealment. But the artists, as they are packing their trunks and stowing away the cash that was once ours, pause with a set smile to give us the same old glad hand and present us with the same old faded flowers. We've had our little experience, but for heaven's sake let us not go into raptures over this ancient gag as the Vicar's son did over the shagreen spectacle cases.

It seems that President Roosevelt is already waking up the Navy Department in regard to the numerous unaccountable delays in completing warships within the specified contract time. These delays have become so chronic that the completion of contracts within the specified time is not now expected. With characteristic energy the President is taking steps to secure more prompt compliance with engagements. He is shaking up the dry bones and infusing something of his own prompt and strenuous nature into the perfunctory process of the bureau. Things will have to be kept moving or he will know the reason why. Naturally the shipbuilders are exercised over the innovation.

President Roosevelt's order to Federal office-holders that they must get off political committees will not hurt many corporations here, though in some parts of the country it may cause grief. The order is a re-affirmation of the rule followed by Cleveland and Harrison. In the main, the same rule was observed by President McKinley, but it was not made an absolute order. McKinley was averse to doing anything that could be construed as an interference with liberty of political action.

The Call says the placing of Metcalf on the Ways and Means Committee illustrates the wisdom of re-electing good men to Congress. This is perfectly true. First termers seldom get placed on good committees and never get an important chairmanship.

Whatever may be the motive, it will be a humanitarian act if England should abandon the concentration camps in South Africa. The plea of military necessity does not remove the barbarous features of the concentration policy.

WHAT BERKELEY FIREMEN WANT.

President Marston De- livers an Address at the Banquet.

BERKELEY, Dec. 9.—At a banquet held by the Association of Volunteer Firemen Saturday evening, at Golden Sheet Hall, Captain Marston, president of the Town Board of Trustees, outlined the fire situation, which is under discussion by the citizens, as follows: "You may think that we do not understand what your needs are. We could do lots of things if we had the money. The reason that we are delaying the spending of the money voted at the special tax is because we want to equip the fire department as well as possible. We do not want to put all the money into a fire-alarm system, as we believe some of it should be expended for apparatus.

"The department has grown from a two-wheeled horse cart to what it is. And yet today the only good fire wagon is the one in the North End fire house. The trouble with all the rest is that they are too light. The way the equipment should be improved is this: 'The Marston fire house should be torn down and a modern two-story fire house erected. It should then contain a hook and ladder, a hose wagon and chemical engine. Two horses and two sets of harness should also be provided. The upstairs should be fitted out for the men who would stay there. This improvement would take \$12,000.

"The Pecos and Deacons should be combined and stationed at San Pablo and University avenue. The Peradits and Lechis should also be put together in a central location. To do all that would take \$38,000.

"We want to expend that \$10,000 which was voted at the special election judiciously. I conferred with electrician Carleton of Oakland, who is now deceased, and he said that the main thing about a good alarm system is the wiring. This he advised should be done under special contract, after which any kind of boxes could be put up.

"But don't think for a minute that the Board of Trustees don't know what you want. As I said before, if the citizens will give us the money we will equip the department."

CARS TIED UP ON THE HAYWARDS LINE

In putting up a new stack at the Elmhurst power house this morning an accident occurred to the feed pump, which caused the cars on the Haywards line to stop running for an hour and a half. By reason of this the cars on the East Oakland and Alameda line got stalled up at Twenty-third avenue, to the great inconvenience of many passengers.

A car on the Grove street line got off the track at Eighth and Washington streets and caused a stoppage in traffic for quite awhile.

NEW LEASE FOR THE POSTOFFICE.

The lease was signed by Postmaster-General Emory Smith. The agreement is made with John R. Spring of San Francisco. The consideration is \$2,400 a year.
